Re: December Maintenance Report

1. General Village Maintenance: I started working on stripping and sanding the village sign that was replaced on Darley Road. The crew changed the filters and fluids on both Gehl's. The rubber edge was replaced on the large blue plow for the Kenworth. The crew fabricated a new rubber plow blade to fit onto the Ford plow.

2. Street Lighting: The light pole on Melbourne Roads parking spots was replaced to due rot and was starting to lean. We have installed two new light fixtures and poles and connected new electric at 12 Merrivale Road and opposite 1 Wensley Drive. These lights were installed due to those areas being very poorly lit at night.
